Connell,
Thank you, this is very helpful. Karen, please let me know if it is ok to give Marvin your contact information. My guess is he will not have questions. Since Jared was one of the addressees on the letter, I think Marvin just wanted to allow for EPA to participate if we wanted to. I am attaching a copy of the letter from the citizen group.

Thanks,
Rachel

The previous NEPA reviewer who helped with that project is no longer in our office (Final EIS was in 2003). Karen Vitulano, however, has much experience working with Navy projects. Karen, can you be available to answer any questions that Navy might have re: responding to a request for a supplemental?

As an aside, as the lead agency, it is entirely the discretion of the Navy to decide to complete a supplemental or to justify why they don't think one is necessary. They have their own NEPA implementing regs that apply. Our role in this instance would be to answer any questions as best we can, but not to serve as authority on Navy's interpretation of their own regs.

Thanks,
Connell

Subject: Question about Treasure Island EIS

Connell,

I don't know if you will be able to help me with this question. In asking around a bit, I received a suggestion to check in with you.

I received an inquiry about Treasure Island from Marvin Norman, a Navy attorney I am working with on another site. Apparently a citizen group sent a letter to the Navy and EPA requesting that the Navy do a supplemental EIS for TI. Marvin is looking for someone at EPA to coordinate with before the Navy sends its response. Do you know anyone who has been involved with the EIS who might be able to check in with him?

Thanks very much.
Rachel
